4 WAYS TO STAY WARM & save MONEY THIS WINTER.

1 ADJUST THERMOSTAT

Spending more time at home this winter? Try to keep your thermostat set no higher than 68°F for maximum savings and seal up drafts to keep the heat in.

2 SET WATER HEATER TO 120°

Reduce hot water usage by installing faucet aerators and efficient flow shower-heads. Adjust your hot water heater to 120°F, or the low setting.

3 CONSERVE WITH LIGHTING

Reduce your costs without compromising security or style! Long winter nights can translate to more hours for your outdoor light fixtures. Left on all night, these lamps can consume more energy than your other fixtures. You can save energy by putting your outdoor lamps on a motion sensor.

4 KEEP THE AIR MOVING

Ceiling fans can help you save not just in the summer but winter too. Cut heating cost by up to 15% during the winter when you let your fan spin clockwise to circulate cool air up. Just flip the switch at the base of your fan and start saving.

HOLIDAY HOURS & SAFETY.

BGE's business office will be closed on Friday, January 1 and Monday, January 18. However, if you have an electric or natural gas emergency, please call us immediately at **800.685.0123**, as emergency service is available 24 hours a day, every day of the year.
