Fall energy savings

Fall's shorter days and longer nights mean your lighting is working overtime. But at what cost? If you're still using incandescent bulbs, you could be spending more every hour they're on. Switch to ENERGY STAR® certified LEDs for long-lasting performance (up to 15 times longer) and energy savings up to 90% compared to incandescent bulbs. And, when you shop participating Maryland retailers, you'll get instant discounts up to \$3.50 per bulb at checkout. Details at BGESmartEnergy.com/SENLighting.

After a successful launch in March, BGE continues its *Energy to Learn* program with WBAL-TV's Jason Newton and Ava Marie this fall. With a long-standing commitment to providing electric and natural gas safety to the public, *Energy to Learn* provides teachers, parents, and kindergarten through 5th grade students with free, easy-to-download educational activities during COVID-19.

Through coloring, word search, and object matching exercises, students learn how to be smarter and safer with their energy use and Jason and Ava continue to help promote *Energy to Learn* as part of BGE's safety education team. To download energy activities visit SafetyCentral.BGE.COM.
